the philosophy of life and welcome to paradise by a r pugh the philosophy of life and welcome to paradise is author a r pugh s attempt to promulgate superficial sentimentalities let him introduce you to some of his monumental verbirosities they are not related one to the other but just placed at random remember that you have a wonderful and powerful tool at your disposal and that tool is the mind s eye so let us start with the individual that you know best and that person is you ask yourself a few simple questions for example 1 what is my mission on this planet earth 2 the things that i choose to do are they right or are they wrong now have a good look at the lifestyle of other individuals what do you think go a step further and look at the events of the world in general why is there no peace among the nations of the world what do you think

maria had been raped by a way of life a way of life known as coconis which refers to various kinds of vicious horrific and inexcusable forms of barbaric behaviour as a direct consequence of this horrific and violent crime maria gave birth a few months later just like several other young girls who had also become innocent silent and secret victims of similar crimes in this country however unlike some of the other young woman victims maria was blessed with a strong faith in god she was determined not to resort to taking her own life and not to destroy the tiny life which was already gradually starting to grow inside her womb maria had simply decided to transform this violent and hateful act which had stripped her of all human dignity into something much more powerful and good she wanted to be able to truly forgive not just the kind of forgiveness given by those who have no choice but the kind of forgiveness proffered by the weak and feeble to those who are stronger because they have no other choice in the matter neither was it the biblical kind when one simply forgives ones fellow men for their sins and wrongdoings it wasnt like the forgiveness given by god either but more of marias own personal and unique quest for forgiveness that she so yearned to be able to give to the young men who had raped her maria was determined that her rapists should recognize the brutality and wickedness of their acts and then implore her forgiveness so that she herself could in turn sincerely forgive them it was the only way for her to redeem her personal dignity she felt that she had suffered enough and that she had every right to expect her rapists recognition of the terrible suffering that they had inflicted on her so it was on a beautiful sunny saturday morning of june that maria finally gave birth to twin boys she called them kimia and elikia which means peace and faith in the congolese language maria brought up and educated her twin boys in a traditional way she possessed a sufficient sum of money to pay for their education and see them through to the end of their high school education she knew that she had done her very best with regard to their civil education she died not long after receiving her twin sons baccalaurat results she died in peace but without having had the opportunity to be able to truly forgive her brutal attackers she died without anyone coming to ask her for forgiveness and without having been able to offer her sincere forgiveness

but her last thoughts really went out to her wonderful children she remembered the great ocean of motherly love that she had been able to give them during their upbringing before she closed her eyes for the last time she asked god to bless them on her deathbed she didnt have the slightest inkling of the powerful impact of the incredible testimonial that she had succeeded in bequeathing to her children as maria africa had also been kidnapped raped and its not a belgian story and tortured for centuries from those repeated rapes were born sick and weak republics none of the many rapists did recognize the shameful paternity despite the fact that their saliva and blood were still visible everywhere and there was no need for complex dna analysis to find out whom they belong to

in this remarkable blend of memoir and criticism james wood noted contributor to the new yorker has written a master class on the connections between fiction and life he argues that of all the arts fiction has a unique ability to describe the shape of our lives and to rescue the texture of those lives from death and historical oblivion the act of reading is understood here as the most sacred and personal of activities and there are brilliant discussions of individual works among others chekhov s story the kiss w g sebalde s the emigrants and penelope fitzgerald s the blue flower wood reveals his own intimate relationship with the written word we see the development of a provincial boy growing up in a charged christian environment the secret joy of his childhood reading the links he makes between reading and blasphemy or between literature and music the final section discusses fiction in the context of exile and homelessness the nearest thing to life is not simply a brief tightly argued book by a man commonly regarded as our finest living critic it is also an exhilarating personal account that reflects on and embodies the fruitful conspiracy between reader and writer and critic and asks us to reconsider everything that is at stake when we read and write fiction

when janice ballenger joined a volunteer rescue company she began keeping a journal and clipping news articles about the calls she responded to now as an emt and deputy coroner she has seen smelled and touched things most people have difficulty just hearing about with the thought of there s nothing worse that i can see she continued her job the nickel mines amish school shootings in october 2006 changed that when a milk truck driver shot ten amish girls and killed himself read her story as one of the few people who entered the schoolhouse with the bodies inside 286pp masthof press 2008

one of the leading textbooks in its field bringing fossils to life applies paleobiological principles to the fossil record while detailing the evolutionary history of major plant and animal phyla it incorporates current research from biology ecology and population genetics bridging the gap between purely theoretical paleobiological textbooks

and those that describe only invertebrate paleobiology and that emphasize cataloguing live organisms instead of dead objects for this third edition donald r prothero has revised the art and research throughout expanding the coverage of invertebrates and adding a discussion of new methodologies and a chapter on the origin and early evolution of life

written by leading european expert domènec melé this is the ideal companion for students determined to make the business world a more ethical and moral place
