peterson's graduate programs in the medical professions and sciences contains a wealth of information on universities that offer graduate professional degrees in acupuncture, oriental medicine, chiropractic, dentistry, dental sciences, medicine, optometry, vision sciences, pharmacy, pharmaceutical sciences, and veterinary medicine. sciences institutions listed include those in the United States, Canada, and abroad that are accredited by U.S. accrediting agencies. up-to-date data collected through Peterson's annual survey of graduate and professional institutions provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty/students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. readers will find helpful links to in-depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research, and much more. in addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation with a current list of accrediting agencies.

edited by John Woodward, a nationally acclaimed special educational technologies researcher, and Larry Cuban, a premier technology educator in the U.S., this book provides a critical examination of current research into technology usage for students with disabilities. the contributing authors establish the history of special education technologies and the new requirements per IDEA 97, then discuss the success and obstacles for special education technology implementation. research was funded by the Office of Special Education Programs, U.S. Department of Education. this book highlights innovative uses of technology, consideration of pedagogical, curricular, and classroom organizational approaches, making technology implementation meaningful and enduring, design considerations for researchers and developers.

this book guides students and faculty in professional doctorates like DNP, EdD, and PsyD on completing practice-based dissertations. it covers tasks unique to professional practice such as negotiating entry into applied settings, securing cooperation, alternative dissertation models, and IRB approval.
