finally readers have a shorter less intimidating introduction to general organic and biological chemistry not only is raymond s text concise it also takes an integrated approach to presenting important topics in a way that makes the material easier to understand in this approach similarities can be exploited and concepts reinforced the result is that readers see the strong connections that exist between these three branches of chemistry

contains a wealth of material that reinforces the text s coverage including a macro view with an outline of major topics a micro view with a concise summary of all details from each chapter and three levels of discussion questions basic recall application and critical thinking

from edward e chatelain valdosta state university georgia this study guide helps students review and master the key ideas from every chapter through labeling exercises chapter reviews with matching statements plus practice tests and challenge tests that consist of multiple choice true false matching and short essay questions

david findlay of colby college has done an outstanding job of writing a student friendly study guide each chapter begins with a presentation of objectives and review it is organized in the form of a tutorial covering the important points of the chapter with learning suggestions along the way quick self test questions review problems and multiple choice questions follow the tutorial solutions are provided for all study guide problems

by kelly bouas henry missouri western state college and douglas a bernstein the study guide employs numerous techniques to help students learn each chapter including the optional industrial organizational psychology chapter contains a detailed outline a key terms section that presents fresh examples and learning aids plus a fill in the blank test learning objectives a concepts and exercises section that shows students how to apply their knowledge of psychology to everyday issues and concerns a critical

thinking exercise and personal learning activities in addition each chapter concludes with a two part self quiz consisting of 40 multiple choice questions an answer key tells the student not only which response is correct but also why each of the other choices is wrong and quiz analysis tables enable students to track patterns to their wrong answers either by topic or by type of question definition comprehension or application

written by john r gordon ralph mcgrew and raymond serway the two volume manual features detailed solutions to 20 percent of the end of chapter problems from the text this manual also features a list of important equations concepts and answers to selected end of chapter questions

libby libby short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not they believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business when writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design libby libby short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter students and instructors have responded very favorably to the use of focus companies and the real world financial statements the companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting
