english speaking readers fond of astrology already know the author thanks to his previous works transits and solar returns and lunar returns and earth returns which have also been translated into several other languages in a practice of almost forty years of astrological research the author has studied and guided over twenty thousand aimed birthdays he has also published a dozen books specifically on solar returns and lunar returns this is his fifth work in english two of them can be downloaded free from his webpage [cirodiscepolo](#) it in this volume ciro discepolo deals with the second resource on which his active astrology is based the first one being the aimed birthday the so called exorcism of symbols in these pages the author suggests to the reader about what can be done when you cannot aim i.e. actively relocate your birthday either your solar or lunar return by a practical application of the notion of activating or constellating a symbol for example ciro discepolo claims that if you can not leave for an aimed birthday to avoid saturn being placed in the 5th house of your next solar return during the twelve months covered by the sr you had better devote more time to your kids help them in their studies or in their sporting activities pay the fee to enrol them in a course perhaps abroad where they could learn new subjects and or nurture and improve their condition in a broad sense planet by planet house by house this volume contains all the suggestions of the author on the exorcism of symbols a useful practice also in the case you do relocate your solar and or lunar returns for example

if you have willingly left some dissonant position in your map of aimed sr or of aimed lr and you wish to lower the threshold of risk a little more the volume also explains the philosophical and psychological roots justifying the practice of the exorcism of symbols
