every material has an active presence and every material is susceptible to change the task of the sculptor is to understand the natural properties of a chosen material to know in the process of creation how best to work with or against its characteristics in this generously illustrated studio manual sculptor oliver andrews takes a new approach to sculpture focusing on how the innate assertiveness of materials affects the complex act of making a sculpture

creating a successful sculpture requires an imaginative concept and a sound design that utilize the potential and avoid the limitations of the material and the process used in making it prior to a few decades ago most sculptors were restricted to carving stone and wood or casting plaster ceramics and bronze for their creations contemporary sculptors however are no longer bound by the limitations of these traditional materials and processes and can now create works in sizes forms and textures that could not have been achieved previously many modern sculptures are now made from materials ranging from steel and aluminum to plastics and composites using processes ranging from welding and adhesive bonding to molding and 3d printing to fully utilize the full potential of such new materials the sculptor needs to understand their points of strength their limitations and the most effective way of shaping them to achieve a given design although this book is written by a materials engineer the subject matter is presented from the point of view of the sculptor with emphasis on the strengths and weaknesses of different materials their resistance to weather conditions natural color and possible surface textures possible methods of shaping and joining tools and equipment needed and safety measures to take whenever possible case studies are used to illustrate the sequence of processes and the cost elements involved in shaping a given material to create an actual work of sculpture

offers advice on using tools and constructing armatures as well as shaping human figures portrait heads and bas reliefs from clay plaster wood stone and metal

features over one thousand color images representing 288 contemporary living sculptors and includes definitions and illustrations of sculpture terms tools techniques and materials

a survey of greek sculpture from the earliest mention to graeco roman times

looking at a work of art like listening to music becomes a rewarding experience only if the senses are alert to the qualities of the work and to the artist s purpose that brought them into being the language of sculpture must be learned in this in depth study readers examine the materials tools methods styles and practices that are involved in sculpting and many of the techniques that have been used by accomplished artists who have contributed to sculpture as a fine art from the marble gods of phidias to the mobiles by alexander calder

sculpture for beginners is your essential guide to exploring the world of three dimensional art whether you re a complete novice or looking to refine your skills this book provides clear and engaging instructions on various sculpting techniques materials and tools through step by step projects you ll learn how to create stunning sculptures using clay stone wood and found objects each chapter includes detailed illustrations tips from experienced sculptors and inspiring examples to ignite your creativity with a focus on developing your own artistic voice this book encourages experimentation and playfulness in your sculpting journey discover the joy of bringing your ideas to life and transform raw materials into expressive art pieces perfect for hobbyists students and anyone eager to dive into the fascinating world of sculpture sculpture for beginners is your gateway to artistic exploration and self expression

green culture an a to z guide explores the on going paradigm shift in culture and lifestyles toward promoting a sustainable environment after years of discussion about the environment dating back to the 1960s counter culture the recent explosion of green initiatives has induced the general public to embrace all things green from recycling in the home to admiring green celebrities this volume assesses the green cultural transformations by presenting some 150 articles of importance to students of sociology history political science communications public relations anthropology literature arts and drama presented in a to z format the articles include appealing topics from green hollywood to green spirituality green art and green restaurants this work culminates in an outstanding reference available in both print and electronic formats for academic university and public libraries vivid photographs searchable hyperlinks numerous cross references an extensive resource guide and a clear accessible writing style make the green society volumes ideal for classroom use as well as for research

first public sculptures delves into the origins of monumental art revealing how ancient societies leveraged these creations to mold public consciousness and establish civic identity exploring cultures from ancient egypt and mesopotamia to greece and rome the book highlights how these sculptures served as potent symbols of power and cohesion for instance colossal statues of pharaohs weren t mere decorations but declarations of divine authority similarly the greeks and romans used sculpture in civic spaces to celebrate victories and honor citizens thereby embodying ideals of justice the book traces the evolution of public sculpture focusing on its use to propagate political ideologies educate the public and shape collective memory it examines specific cases with archaeological evidence historical texts and art historical analysis this approach distinguishes the book from broader surveys by focusing on the earliest examples and their immediate impact the arguments in first public sculptures emerge from a multidisciplinary approach integrating art history archaeology political science and sociology by analyzing primary source materials and existing scholarship the book illustrates how these sculptures reflect and influence social dynamics the book progresses by first examining pre classical civilizations then moving onto the early

greek and roman societies and finally focusing on political ideologies public education and collective memory

teaching primary art is an introductory textbook for those training to teach and support learning in art in the primary school the book first explores the underpinning philosophy and pedagogy of teaching and learning art including why we teach it planning and assessment and teaching and support strategies then it covers the practical aspects of teaching art including a list of useful vocabulary to encourage talk around art and links to cross curricular learning
