i offer this black white version so that for all those art enthusiasts who would rather have a book in hand than an electronic e book version almost all color images and representations can also be found on social media see additional sources in the appendix i have been in the arts since i was 6 years old but i did not dare call myself an artist till i was about 35 many artists feel this way art cannot reveal more of its properties and consequently its genuine values because art s concluding evaluation is always tied to success money and fame over 95 of artists lead an existence around the poverty level it is obvious to me we lost our inherent understanding of art s purpose by expanding our awareness just a little we could realize how much we are dependent on our creativity this book shows our way back to art s initial functions for humans by presenting alternatives to the way art works for example art that uses creativity for the joy of creativity s sake trains the inborn human creative muscle to allow us to recognize new observations art reminds us of our strength of what it means to be human and reflects our human potential a fair value creation model for creativity can only emerge when we gain understanding of the essence of art that governs all the arts we have to start comprehending the function of its patterns its higher aesthetics and the artist s creative voice as assessable parts values by opening our awareness of art the content of this book allows us to gain a new art consciousness that realigns us with our human potential s biggest asset creativity the more i walk on this path toward understanding the essence of art and its functions the more i feel blessed to recognize more of my potential and be human michael a self aware artist this book is for anyone in the art community and those who are interested in how art works for all that want to know how to become an artist being an artist want to be a better artist how to get better at art or how to become a famous artist

this book is based on two beliefs says john russell in his preface one is that in art as in the sciences ours is one of the big centuries the other is that the history of art if properly set out is the history of everything it is in this spirit that the book deals with the major movements in art and the major artists

since the 1860s and it also interweaves the central historical and cultural events and themes of the modern period the meanings of modern art is the work of a critic who has lived with modern art for almost half a century and has been close to many of those who have created the masterworks of our time the book contains a choice of illustrations as exacting as it is generous and the 328 illustrations in color and in black and white are integrated with the text the history of art as presented here is truly the history of everything in the words of the college art association which in 1978 gave john russell its mather award for art criticism john russell can illuminate everything from the stones of egypt to the bricks of carl andre publisher s description

continuing his exploration of the substance of a basic education mortimer j adler examines the inherent values of various art forms and considers their significance within a well rounded curriculum he maintains that imaginative literature and works of science philosophy theology and history act upon our intellects and stimulate the discussion of ideas the non verbal arts which act directly and powerfully on our emotions and sentiments without the intermediation of thought are to be valued for their beauty their workmanship and the pleasure they give rather than their contributions to a body of ideas elucidating his ideas through the discussion of specific works adler concludes that an appreciation of all the human arts is essential to the development of a fully cultivated and well educated person
