meet these challenges they also altered their electoral strategies and political spending
patterns this book traces those actions and shows what they mean for the future of
environmentalism in the political arena while environmental advocacy groups have
become bigger and better funded in recent years so have the corporate interests that
compete with them for the attention of public and politicians the green agenda in
american politics offers a new look at environmental advocacy that focuses on
contemporary lobbying electioneering and agenda setting in this new context drawing on
interviews with activists from a wide range of organizations robert duffy describes what
environmental groups actually do when lobbying officials or the public he examines

activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s he then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives he also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular duffy s book opens a new window on the influence of big money in the supposedly democratic electoral process
