teachers cannot teach what they do not know this country has tolerated a weak licensing system for prospective teachers for decades this weak system has been accompanied by an increasingly emptier curriculum for most students depriving them of the knowledge and skills needed for self government an empty curriculum how teacher licensure tests lead to empty student minds makes the case that the complete revision of the licensing system for prospective and veteran teachers in massachusetts in 2000 and the construction of new or more demanding teacher licensing tests contributed significantly to the massachusetts education miracle that miracle consisted of enduring gains in achievement for students in all demographic groups and in all regional vocational technical high schools since 2005 gains confirmed by tests independent of massachusetts policy makers the

immediate purpose of this book is to explain what massachusetts did in 2000 to strengthen its teacher licensing and re licensing system to ensure that all teachers could teach to relatively strong k 12 standards its larger purpose is to suggest that development of strong academic standards in all major subjects should be followed by complete revision of a state s teacher licensing system not as has been the case for several decades the development of k 12 student tests if this country wants to strengthen public education

janet w lerner this timely volume explores issues pertinent to the emerging subject of college education for adults with learning disabilities the inspiration for the book was a conference held at barat college in lake forest illinois on april 7 1990 entitled college students with learning disabilities reviewing the 80s and planning for the 90s the occasion was the celebration of the tenth anniversary

of barat college s program for college students with learning disabilities papers presented at this conference plus several additional invited chapters and those of the co editors are included in this much needed publication only a few years ago college was out of the question for most adults with learning disabilities it is heartening to note that this situation has changed substantially over the last 15 or so years with great strides in opportunities for adults with learning disabilities to acquire a college level education from a slow beginning with programs such as the one at barat college there are today programs and support services in a variety of settings at a growing number of colleges and universities many individuals with learning disabilities can look forward to experiencing college and better preparing themselves for the future the collection of papers in this book offers a comprehensive review of this exciting and challenging field
