chance vought s f7u cutlass was inspired by design data retrieved from germany s arado company at the end of wwii to avoid extreme nose down forces the

cutlass was a tail less aircraft its swept wings had vertical fins and aileron control surfaces although intended to operate at up to mach 95 the aircraft was hampered by under powered westinghouse turbojets and its nose up profile made carrier landings dangerous although its in flight performance was acceptable the navy initially rejected the plane as unfit for carrier use while nearly 200 f7u 3s were eventually delivered they were retired only five years after their introduction originally printed by the u s navy this f7u 3 flight operating manual taught pilots everything they needed to know before entering the cockpit classified restricted it was recently de classified and is here reprinted in book form this facsimile has been reformatted care has been taken however to preserve the integrity of the text

each motor vehicle jurisdiction in the united states has an established process by which it assesses the required knowledge of driver license applicants to determine whether they are able to operate their vehicles safely and thus qualify for a driver s license corollary to that assessment process is the jurisdiction s responsibility to provide drivers with the information for which they are to be held responsible during the licensing exam and subsequently while operating their vehicle on our nation s roadways the primary means of providing this information to drivers is the jurisdiction s basic driver license manual this study was directed at identifying best practices with regard to the basic driver license manuals produced by motor vehicle jurisdictions to identify best practices three types of information sources were consulted 1 driver license manuals produced by motor vehicle jurisdictions throughout the country 2 driver safety information produced by relevant government agencies and private organizations and 3 research news education and popular literature of 212 knowledge items recommended by the american association of motor vehicle administrators aamva for inclusion in driver manuals 119 were addressed by a majority 51 or more of the manuals reviewed and are considered best practices in subject matter content additional topics that should be considered best practices in subject matter content are intersection safety particularly with regard to red light running sharing the road with trucks particularly emphasis on their no zones road rage and aggressive driving driver distraction seatbelt usage particularly with regard to the jurisdiction s primary or secondary seatbelt laws and following distance with emphasis on the need for a three or four second gap with regard to factors other than subject matter content it was found that most jurisdictional manuals 77 are smaller than the 8 1 2 in x 11 in size of the arizona manual with 48 opting for the compact 5 1 2 in x 8 1 2 in more than half the jurisdictions produce a version of the manual in spanish and more than a third of the jurisdictions produce a specialized driver manual directed at teen learners and their parents and encouraging parents active involvement in their teen s learning process
