big discount only for this weekend most people would agree that an ok score in speaking is 5 or 6 many students now realise that a score of 5 or 6 for speaking is not enough for their study requirements many students spend months preparing for the ielts speaking test and still find

it difficult to score 7 or higher in fact some candidates actually score lower than they potentially could have scored there are a few reasons behind this poor performance and these will be discussed in detail throughout this book but one major factor is the lack of quality material available for ielts speaking preparation there are a number of ielts speaking books on the market but this book aims to break new ground by focusing on how to prepare for and achieve a speaking score of 7 or maybe higher all of the skills and strategies presented in this book are typical of a high scoring speaking candidate this book is intended for anyone who intends to take the ielts test it will also help learners of english improve their speaking skills it is suitable for both classroom use and self study

this book aims to provide language testers with a background in the conversation analytic framework

second foreign language l2 speech production is a complex process requiring individuals combined efforts to utilize various processing components such as conceptualiser formulator and articulator since the publication of pim levell s book speaking from intention to articulation in 1989 a considerable number of studies have examined l2 speech production in the field of neuroscience with a particular focus on the link between speech perception and speech production undeniably a neurolinguistic examination of speech production can enrich our understanding of how human brains compute linguistic information at a cognitive level however it is insufficient by only focusing on the neurocognitive dimension of speech production given that individuals speech production can be subject to various individual differences factors either cognitively affectively or socio culturally it is therefore necessary to move beyond the neurocognitive

understanding of speech production by taking every possible perspective into consideration individual difference as an umbrella term covers psychological traits personal characteristics cognitive and emotional components that distinguish learners from each other given that individual difference factors can reveal disparities in L2 learning and performance among learners such factors have attracted researchers growing interest concerning their influences on L2 speech processing their relationships with L2 speech performance and their contributions to L2 speech development nevertheless our understanding of L2 speech production is not only insufficient compared to other L2 skills such as writing and reading but also limited to the neurocognitive account of L2 speech production more research therefore is in urgent need to uncover the influence of various individual differences factors on L2 speech production from multidisciplinary perspectives
