student unit guides are perfect for revision each guide is written by an examiner and explains the unit requirements summarises the relevant unit content and includes a series of specimen questions and answers there are three sections to each guide introduction includes advice on how to use the guide an explanation of the skills being tested by the assessment objectives an outline of the unit or module and depending on the unit suggestions for how to revise effectively and prepare for the examination questions content guidance provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit it is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics question and answers sample questions and with graded answers which have been carefully written to reflect the style of the unit all responses are accompanied by commentaries which highlight their respective strengths and weaknesses giving students an insight into the mind of the examiner

shane crotty's biography of david baltimore details the life and work of one of the most brilliant powerful and controversial scientists of our time although only in his early sixties baltimore has made major discoveries in molecular biology established the prestigious whitehead institute at mit been president of rockefeller university won the nobel prize and been vilified by detractors in one of the most scandalous and protracted investigations of scientific fraud ever he is now president of caltech and a leader in the search for an aids vaccine crotty not only tells the compelling story of this larger than life figure he also treats the reader to a lucid account of the amazing revolution that has occurred in biology during the past forty years basing his narrative on many personal interviews crotty recounts the milestones of baltimore's career completing his ph.d at rockefeller university in eighteen months participating in the anti vietnam war movement winning a nobel prize at age thirty seven for the codiscovery of reverse transcriptase and co organizing the recombinant dna genetic engineering moratorium along the way readers learn what viruses are and what they do what cancer is and

how it happens the complexities of the aids problem how genetic engineering works and why making a vaccine is a complicated process and as crotty considers baltimore s public life he retells the famous scientific fraud saga and baltimore s vindication after a decade of character assassination crotty possesses the alchemical skill of converting technical scientific history into entertaining prose as he conveys baltimore s huge ambitions intensity scientific genius attitude toward science and politics and baltimore s own view about what happened in the baltimore affair ahead of the curve shows why with his complex personality keen involvement in public issues and wide ranging interests david baltimore has not only shaped the face of american science as we know it today but has also become a presence in our culture

nuclear physics deals with bohr s work on nuclear physics which began in the pre 1932 days with his thinking deeply but inconclusively about the seeming contradictions then presented by the evidence about the nucleus in 1936 bohr recognised and described the insights provided by neutron scattering experiments the excitement of this new understanding and its extension and consolidation occupied much of the subsequent years in 1939 he was again first in understanding the essential features of the newly discovered phenomenon of fission applying successfully the point of view of nuclear reactions which he had developed over the past three years later in 1949 50 he was impressed by the success of the nuclear shell model which on the face of it seemed hard to reconcile with the picture of the closely interacting nucleons which he had pioneered in 1936 bohr put much effort into clarifying this paradox
