the united states is one of the most religious places on earth but it is also a nation of shocking religious illiteracy only 10 percent of american teenagers can name all five major world religions and 15 percent cannot name any nearly two thirds of americans believe that the bible holds the answers to all or most of life s basic questions yet only half of american adults can name even one of the four gospels and most americans cannot name the first book of the bible despite this lack of basic knowledge politicians and pundits continue to root public policy arguments in religious rhetoric whose meanings are missed or misinterpreted by the vast majority of americans we have a major civic problem on our hands says religion scholar stephen prothero he makes the provocative case that to remedy this problem we should return to teaching religion in the public schools alongside reading writing and arithmetic religion ought to become the fourth r of american education many believe that america s descent into religious illiteracy was the doing of activist judges and secularists hell bent on banishing religion from the public square prothero reveals that this is a profound misunderstanding in one of the great ironies of american religious history prothero writes it was the nation s most fervent people of faith who steered us down the road to religious illiteracy just how that happened is one of the stories this book has to tell prothero avoids the trap of religious relativism by addressing both the core tenets of the world s major religions and the real differences among them complete with a dictionary of the key beliefs characters and stories of christianity islam and other religions religious literacy reveals what every american needs to know in order to confront the domestic and foreign challenges facing this country today

the first volume of the series language and ideology this work explores mature literacy patrick l courts argues that while by society s standards many people can read well they are unable to create meaning from the world of oral and written language his theory derives from psycho and sociolinguistics cognitive psychology philosophy literary criticism and whole language theory courts criticizes programmed activities texts and workbooks challenging the control that commercial textbook publishers and test makers exert on

education he shuns overemphasis on methods and offers an alternative approach firmly grounded in theory and aimed at empowering teachers and students courts begins with a discussion of liberatory pedagogy drawing from whole language theory the social semiotics of halliday reader response theory and the ideas of heidegger and derrida the subsequent methodological chapters build a case for what courts calls a conservative revolution in literacy education teachers combining a sound base of theory with methodologies to tap students generative creative powers courts s methodology aims to empower people as meaning makers this book is valuable to teachers and administrators textbook publishers and students of education

this is a core text for the elementary reading methods course sometimes referred to as developmental reading it is distinguished by its heavy emphasis on reading instruction most reading texts are organized around what research says about learning to read improving classroom reading instruction focuses more on teaching i e on how teachers think and act in order to help students achieve literacy the ability to read and write
