the book of ezeziel has long astonished its readership in the history of exegesis the book s supposed author has often been regarded as mad or ill or as suffering from post traumatic stress disorder according to a recent diagnosis the present study radicalizes this approach by investigating the book of ezeziel as trauma literature on the basis of a multi faceted trauma hermeneutics the peculiarities as well as the inconsistencies of the book are shown to be material aspects of a fictionalised trauma process in the context of israel s experiences of siege warfare and mass deportation in the early 6th century bce the analysis demonstrates that the potential for violence inherent in the catastrophe has created not only an intense discourse about blame and punishment but also a theologically disturbing picture of a traumatized deity in both cases the purpose is to assure the survival of yhwh and the people das ezechielbuch hat seine leerschaft seit jeher verwundert und verwirrt den vermeintlichen autor des buches hat man im laufe der auslegungsgeschichte immer wieder pathologisiert zuletzt ist ezechiel mehrfach die diagnose posttraumatische belastungsstörung attestiert worden die vorliegende studie nimmt diesen krankheitsansatz auf und radikalisiert ihn indem sie das ezechielbuch konsequent als fiktionale trauma literatur analysiert vor dem hintergrund einer mehrdimensionalen trauma hermeneutik erschließt sie die ezechielprophetie neu als literarisch theologische auseinandersetzung mit den traumatisierenden kriegsereignissen die juda und jerusalem zu beginn des 6 jh s v u z getroffen haben es zeigt sich dass die ungeheure gewaltfülle der exilskatastrophe nicht nur einen massiven schuld strafe diskurs sondern auch das theologisch erschütternde bild einer traumatisierten gottheit aus sich herausgesetzt hat beides mit dem ziel das Überleben jhwhs und des volkes zu sichern

sir karl popper 1902 1994 is one of the most controversial and widely read philosophers of the 20th century volume ii deals with popper s metaphysics and epistemology including his proposal critical rationalism that it is through sharp criticism rather than through the provision of justification that our knowledge progresses

the series beihefte zur zeitschrift für die alttestamentliche wissenschaft bzw covers all areas of research into the old testament focusing on the hebrew bible its early and later forms in ancient judaism as well as its branching into many neighboring cultures of the ancient near east and the greco roman world

iconographic exegesis combines the study of biblical texts exegesis with the study of ancient expressions of visual art iconography studying ancient visual art that is contemporary with the documents of the old testament gives remarkable insight not only on the meaning and historical context of the biblical text but also because it facilitates greater understanding of how the ancient authors and audiences saw thought and made sense of the world iconography thus merits close attention as another avenue that can lead to a more nuanced and more complete understanding of the biblical text each chapter of this book provides an exegesis of a particular biblical text or theme the book is organized around the tripartite structure of the hebrew bible and demonstrates that iconographical exegesis is pertinent to every nook and cranny of the bible within the three parts there is special emphasis on genesis isaiah and the psalms in order to make the book attractive for classes that deal with one or more of these books and might therefore include an iconographic perspective in addition to connecting with a major issue in biblical interpretation theology or visual studies each chapter will end with one or two exercises directing the reader student to comparable texts and images enabling them to apply what was described in the chapter for themselves this approach enables beginners as well as advanced readers to integrate iconography into their toolbox of exegetical skills
