few issues created greater consensus among civil war era northerners than the belief that the secessionists had committed treason but as william a blair shows in this engaging history the way politicians soldiers and civilians dealt with disloyalty varied widely citizens often moved more swiftly than federal agents in punishing traitors in their midst forcing the government to rethink legal practices and definitions in reconciling the northern contempt for treachery with a demonstrable record of judicial leniency toward the south blair illuminates the other ways that northerners punished perceived traitors including confiscating slaves arresting newspaper editors for expressions of free speech and limiting voting ultimately punishment for treason extended well beyond wartime and into the framework of reconstruction policies including the construction of the fourteenth amendment establishing how treason was defined not just by the lincoln administration congress and the courts but also by the general public blair reveals the surprising implications for north and south alike

this book reviews the main topics in thromboprophylaxis around orthopedic surgery from a general scope of the problems with the disease highlighting them in orthopedics to the new specific protocols

involving for example new oral anticoagulants the prevalence of the venous thromboembolism in each procedure from easy to hard surgeries with different rates of related thrombosis and the risk factors to bear in mind in each one related and non related with the orthopedic procedure are also revised a chapter focus on the diagnosis and treatment of venous thromboembolism which is commonly forgotten in many books addressed to orthopedic surgeons and anaesthesiologists the methods for thromboprophylaxis have three specific chapters the most common drugs used and recommended when pharmacological prophylaxis is needed new drugs which are arising day by day and which management will be of main importance in a close near future and mechanical methods recommended both as additional when possible and for sole indications when the risk of bleeding could move us to minimize the real risk of thrombosis anaesthetic implications for thromboprophylaxis and also main implications of the application of antithrombotic protocols in the anaesthetic practice are covered by another chapter in our opinion it was very important to divide the orthopedic procedures according to their own thrombotic risk so having their own protocols for thromboprophylaxis high risk day surgery procedures and special surgical procedures are included in three different chapters from three different authors with complementary views finally in a last chapter we review the problems involving the perioperative management of antiaggregated and anticoagulated patients with a special part in hip fracture surgery
