the problem of definition has a long history and has engaged the minds of some of the most eminent thinkers in the western tradition from plato and aristotle onwards but it is also an everyday problem constantly confronting all who have to draft or interpret the countless texts on which modern society depends definition in theory and practice focuses on two areas where difficulties arise in a particularly acute form lexicography and the law examining a wide range of approaches and definitional techniques backed up by detailed analyses of dictionary entries and court cases the authors provide a comprehensive survey of their subject they argue that what underlies the problem of definition are conflicting assumptions about the way language functions this in depth study of definition will be of interest to academics researching lexicography semantics and the intersection of linguistics and jurisprudence

this volume collects the extended abstracts of 45 contributions of participants to the seventh international summer school on aggregation operators agop 2013 held at pamplona in july 16 20 2013 these contributions cover a very broad range from the purely theoretical ones to those with a more applied focus moreover the summaries of the plenary talks and tutorials given at the same workshop are included together they provide a good overview of recent trends in research in aggregation functions which can be of interest to both researchers in physics or mathematics working on the theoretical basis of aggregation functions and to engineers who require them for applications

in the immense literature on globalization the work of roland robertson stands out in particular his insistence that globalization manifests itself primarily as glocalization the simultaneity of the global and the local of homogenization and heterogenization continues to influence how a wide variety of observers understand the process including those who contest it in honour of robertson s lifetime contributions this volume brings together a set of essays that demonstrate the cogency of his approach point out directions in which it can be further developed and illustrate the insight it can provide in topics as varied as religion football wine morality and ufos contributors include peter beyer john boli didem buhari gulmez rebecca catto richard giulianotti ulf hannerz david inglis paul james habibul haque khondker anne sophie krossa frank lechner kristian naglo john h simpson manfred b steger and george m thomas
