using a clear hands on approach to learning front office skills medical office administration 4th edition prepares you for a successful career as an administrative medical office assistant performing procedures with simchart for the medical office scmo you'll practice day to day tasks as if you were in an actual office setting this new edition adds updated content to support use of the electronic health record new affordable care act information insurance billing coding content and scmo activities woven throughout the text covering administrative tasks from appointment scheduling to medical billing this work text helps you develop the knowledge and skills you need to think critically and respond confidently to the challenges you'll encounter on the job access to simchart for the medical office sold separately a conversational writing style makes it easier for you to read and understand the material stopping points provide you with thought provoking questions or activities to break up the narrative in manageable segments hipaa hints ensure that you comply with hipaa mandates real world examples apply important concepts to the medical office setting interactive electronic procedure checklists spell out the individual steps required to complete a full range of administrative procedures and are based on caahp competencies new simchart for the medical office scmo throughout text allows you to practice common administrative tasks with real world office management software new coverage of the affordable care act and icd 10 prepares

you for what you'll encounter on the job. New medical assisting mapping tables tie into CAAHEP and ABHES competencies. New high-quality illustrations and updated screenshots help reinforce content.

Get realistic hands-on practice with performing EHR tasks combining a print textbook with online SimChart for the Medical Office software. The electronic health record for the physician's office, 4th edition, uses real-world examples and screenshots to walk you through each EHR task. Clear step-by-step guidelines simplify the exercises in each simulation so you master all the EHR skills required of a medical office professional. You'll learn how to use EHR in patient care and reimbursement as you perform tasks in administrative, clinical care, and coding and billing. Written by medical assisting educator Julie Pepper, this manual also helps you prepare for success on the Certified Electronic Health Records Specialist (CEHRS) examination. Unique integration with SimChart for the Medical Office, SCMO, Elsevier's educational EHR sold separately, makes it easier to learn and apply EHR fundamentals. EHR exercises with step-by-step instructions reinforce key concepts and allow practice with actual software, increasing in difficulty based on the knowledge gained. Critical thinking exercises provide thought-provoking questions to enhance learning and problem-solving skills. Chapter review activities allow you to assess your knowledge of the material with activities such as a review of key terms, matching, and true/false questions, and additional opportunities for software practice. Review of paper-based office procedures describes how tasks are completed when the healthcare facility is using paper-based procedures instead of electronic trends and applications. Provide real-life examples of how EHR systems are being used to improve health care. Application exercises in the appendix include front office, clinical care, and coding and billing, allowing you to practice skills before tackling graded SCMO exercises. Student resources on the Evolve website include a custom test generator to allow CEHRS exam practice or simulation. New content is aligned to the latest blueprint for the Certified Electronic Health Records Specialist (CEHRS) exam. New updated coverage includes data validation and reconciliation, patient portals, EHR training, troubleshooting techniques, common documentation errors, reimbursement systems and processes, authorizations, federal guidelines, and escalation procedures and reporting. New screenshots demonstrate EHR applications within SimChart for the Medical Office.

This text workbook is designed to expose students to both traditional medical office procedures and the computerized medical office. Projects and simulations are included and can be done manually or on the computer using Medisoft patient accounting software.

This remarkably practical resource gives you one-stop access to all of the medical office management techniques you need. You'll find detailed guidance on technical skills like management of appointments and schedules, health insurance, billing, and use of office automation systems, as well as advice on personnel management, effective communication, ethical and legal issues, patient confidentiality, and many other issues that are essential to your success. And you will like how easy this manual is to use. Samples of consent forms, letters, and procedural policies offer concrete examples for you to follow. Manager alerts point out potential pitfalls and tell you how to avoid them. Helpful from the author's notebook, tips describe the best ways to handle a variety of office problems.
