this report documents the results of an investigation into the feasibility of developing a simulator for the training of bus operators current transit training programs were examined and training needs identified with the assistance of an advisory committee from the transit industry features required of a driving simulator to meet those training needs were identified and the cost of implementing and operating such a simulator

were assessed due to the high costs of simulators with the required features it appears that no cost benefit would accrue with the use of such a simulator no training time savings or safety benefits could be documented to justify the use of a driving simulator for bus operator training
