a very substantial and reliable introduction to social theory imaginatively written and extremely readable the new edition contains three valuable additional chapters william outhwaite professor of sociology university of sussex uk the long anticipated second edition of this original and approachable text examines social theory in the context of its traditions and historical development and explores its contemporary relevance in explaining society and understanding social relations the text has been substantially revised and includes three new chapters two of which depict theory in action and a new conclusion may and powell have also added new material on both emotion and globalisation situating social theory begins by charting the history of social theory examining its development in terms of the enlightenment project and the cultural and intellectual contexts in which theorists worked and constructed their ideas it goes on to critically examine traditions in social thought including hermeneutics phenomenology pragmatism critical theory structuralism actor network theory systems theory and feminisms in outlining the main ideas behind these traditions the form and content of modern social theory is situated within its historical roots enabling the reader to actively explore the arguments and reflect upon their strengths and weaknesses throughout the book the relationships between agency the social self and social structure provide a thematic coherence there is a comprehensive bibliography that will help the reader to explore theories of particular interest in greater depth situating social theory is an invaluable text for intermediate undergraduate courses within sociology and the wider social sciences and provides an essential source of reference for advanced undergraduates and postgraduate researchers

an upper division undergraduate social theory textbook that introduces the student to the multitude of different theorists this book helps students grasp theories and their relevance and application to modern life

this second edition of patrick baert s widely acclaimed social theory in the twentieth century has been brought right up to date with cutting edge developments in social theory today it offers an easy to read but provocative account of the development of social theory covering a range of key figures and classic schools of thought the authors also bridge the gap

between philosophy and social theory locating the theoretical views of individuals such as giddens foucault and habermas within wider historical traditions

social theory has undergone dramatic changes over the past fifteen years the aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought the contents of the book range in a systematic way across the major traditions of social theory prominent today among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences traditions of thought discussed include behaviourism symbolic interactionism parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory marxism and critical theory

this revised edition of pip jones s extremely popular introduction to social theory now benefiting from the collaboration of shaun le boutillier and liz bradbury has been carefully and thoroughly updated with the latest developments in this continually changing field written in a refreshingly lucid and engaging style introducing social theory provides readers with a wide ranging well organized and thematic introduction to all the major thinkers issues and debates in classical and contemporary social theory introducing social theory traces the development of social theorizing from the classical ideas about modernity of durkheim marx and weber right up to a uniquely accessible review of contemporary theoretical controversies in sociology surrounding post modernity and reflexive sociology with great clarity the authors explain the ideas of seminal thinkers such as foucault bauman habermas beck bourdieu and giddens as well as paying increased attention to other important contributions from theorists such as margaret archer fredric jameson and george ritzer introducing social theory is the ideal textbook for students at all levels taking courses in sociology from a level students to undergraduates who are looking to engage with social theory remarkably easy to follow and understand the new edition lives up to its predecessor s goal that students need never be intimidated by social theory again

this textbook delivers a new thematic introduction to social theory that explores theoretical issues in their contemporary social contexts each chapter is devoted to a specific thematic

area including the state governance the economy civil society culture language knowledge the self emotions the body and social justice each chapter details the key issues for debate and the relevant theories while linking those debates and theories to everyday life distributed throughout the chapters are focused sections on key concepts and their research applications alongside helpful additional detail including a glossary further suggested readings chapter summaries and questions for discussion the book also provides useful information on key theoretical movements such as feminism marxism and post structuralism as well as biographies of key theorists as such it reflects the breadth of social theory and its interdisciplinary nature by drawing on thinkers not just from sociology but also from philosophy history literature geography and cultural and gender studies the book s logical structure and clear pedagogical features make it an appealing and accessible introductory text for students new to social theory the chapters demonstrate the relevance of social theory to everyday life such that readers can understand and actively engage with key concepts mark murphy is reader in education public policy at the school of education university of glasgow uk his published work includes two books on social theory and education

covering the ideas of key theorists this text provides an introduction to the relationship between the environment and social theory both historically and within contemporary social theory

postcolonial thought and social theory maps the convergences and differences between these two seemingly opposed bodies of thought it explores the different waves of postcolonial thought elaborates the postcolonial critique of social theory and charts different strategies for crafting a postcolonial social science

foundations of social theory a critical introduction accessibly introduces students to classical and contemporary social theory exploring the foundational theories which shape the discipline while also engaging critically with their contribution and presenting the more progressive and contemporary theorists in dialogue with canonical figures social theory is introduced as the construction and connection of concepts which make social inquiry possible while appreciating that the study of society is never truly objective the relationship

between positionality politics research and knowledge production is discussed and ideas from critical theorists feminist theorists and decolonial and critical race theorists are foregrounded travelling chronologically and thematically from the birth of the discipline and the work of marx weber and durkheim through to intersectionality queer theory and decolonial and postcolonial theory this book gives students a strong foundation in the broad field of social theory while also encouraging them to think critically about the theories and theorists presented equipped with end of chapter questions and further reading this book will be essential reading for any student studying social theory for the first time

over the past quarter century social theory has moved in diverse and often seemingly incompatible directions exaggerating differences of approach that existed even in earlier periods in a strikingly original book barry barnes uses this intellectual diversity not only to identify but also to unify the central ways of looking at the field barnes frames his task by addressing the most important problem confronting all students of society today the apparent conflict between cultural and functional methods of describing the social order on one hand and choice theoretic accounts on the other but rather than reviewing in detail the origins and development of these contending views of reality barnes conducts a dialogue between the two perspectives thereby revealing their respective strengths and shortcomings in the process he develops a case for a theoretical third way an interactionist understanding of the workings of the social order and the emergence of behavioral norms barnes successfully applies interactionist analysis formerly used mostly for micro social settings to macro phenomena like the formation of status groups the origin of social movements the politics of class formation and the dynamics of bureaucratic action he shows how these phenomena are inexplicable in terms of exclusively cultural functional or choice theoretic methods they can be understood only by showing how norms emerge through interaction barnes has constructed a coherent and learned vision of the fundamentals of social theory that will excite not only sociologists but all social scientists and their students originally published in 1995 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

treating social theory as an exciting intellectual journey in its own right this new introductory level textbook presents the key ideas and concepts in social theory together with an account of the intellectual background from which they emerged aimed at first year undergraduates studying sociology and all related disciplines in the social sciences and humanities it provides an introduction to the major questions and debates facing social theorists and sociologists clearly designed presentation and layout features help readers navigate their way around the material thus giving them the best chance of finding what they need quickly and easily the book is supported by a companion website containing additional materials for both students and lecturers using the book which is available from the link above

providing a concise and comprehensive introduction to both classical and contemporary social thought this volume makes social theory and social theorists accessible and meaningful

welcome to social theory is exactly what students want a lucid and engaging introduction to social theory that carefully uses images examples and quotations to illustrate new ways of examining contemporary social life tom brock s comprehensive and accessible style produces an indispensable guide to social theory that examines the major theoretical traditions from marxism through to poststructuralism and from feminism through to postcolonial theory new materialism and posthumanism welcome to social theory gives careful appraisal of classical ideas and debates in social theory and traces their impact through discussion of major contemporary theorists including michel foucault pierre bourdieu anthony giddens margaret archer judith butler bell hooks kimberlé crenshaw edward said homi bhabha gayatri spivak bruno latour gilles deleuze and rosi braidotti social theory matters and this book shows why through relevant and compelling examples including the gig economy everyday sexism digital black feminism animal and environmental activism stigma and discrimination against migrants the need to decolonise the sociology curriculum and many more welcome to social theory is an indispensable text for undergraduate students who are new to social theory dr tom brock is a senior lecturer of sociology at manchester metropolitan university

examining the core sociological theories that have emerged in the first two decades of the current century a critical introduction to contemporary social theory outlines their attempts to

answer the most fundamental questions of the discipline from the nature of social order to the mechanisms of social change through a careful exploration of the history of modern social theory piotr sztopka lays the critical groundwork for investigating the development of contemporary social theory from its founding fathers in the 19th century through the rich contributions of the 20th century known as the golden age of theory up to the most recent developments and illuminates how it is both anchored in and a critique of previous attempts to theorize foundational questions to social being and action contemporary theory the book argues is now moving toward analysis of action interpersonal relations social and epistemological realism and multivalent mechanisms at the root of social phenomenon major social theoretical thinkers like anthony giddens pierre bourdieu jeffrey alexander randall collins jonathan turner hans joas ulrich beck erving goffman and others are presented and evaluated as significant contributors to contemporary social theory while pointing toward future possibilities for social theory in the current century this will be a key resource for undergraduate and graduate students in sociology social theory and contemporary cultural studies

covering a wide area of political sociology and social and political theory this reader offers a selection of extracts incorporating both primary and secondary readings as well as a general introduction to the concept of social theory each section is prefaced by an introduction to the relevant theorist s and each reading is accompanied by a short explanatory introduction including a broad range of texts the book offers a general introduction to the main writings of political sociology and social theory while other texts tend to focus either on either traditional or contemporary figures this reader is unique in tracing a connecting strand from the work of marx weber and durkheim to more contemporary social theorists and by focusing on the theories of social conflict cohesion and consent it also acts as a guide to issues in sociological political and cultural analysis includes sections on marx and engels gramsci durkheim and parsons weber the frankfurt school adorno and horkheimer marcuse habermas foucaultintroduces core social concepts and key features of modern society structure and agency ideology discourse and legitimation the state economy civil societykey features covers the main social thinkers and the most important concepts focuses on how writers contribute to our understanding of social conflict cohesion and consent substantial introductions to each part place the readings in conte

modern social science is largely pessimistic about social life and inquiry and this text traces the reasons for this it argues for a creative and progressive social science to tackle the real problems of society and to find a solution which would expand human competence and practical resources

this book provides an illuminating introduction to a collection of readings on social theory and provides an overview of the socio historical context and delineation of key thinkers and texts it includes a new section exploring social theory at the limits of the social

trying to understand how the world looks through the eyes of individuals and groups and how it shapes the ways they think and act is something social workers do all the time it is what social theorists do too this book identifies and explains in a highly accessible manner the absolute value of social theory for social work drawing on the theoretical ideas and perspectives of a wide range of classical and modern social theorists the book demonstrates the insights their work can bring to bear on a wide range of social work practice scenarios issues and debates departing with the work of the classical theorists the book covers a diverse range of theoretical traditions including phenomenology symbolic interactionism norbert elias michel foucault pierre bourdieu feminism and globalization theory putting to work ideas from these different perspectives a range of social work scenarios issues and debates are opened up and explored the final chapter brings together the various theoretical strands and critically considers the contribution they can make towards realizing core social work values in a rapidly globalizing world demonstrating exactly how and in what ways social theory can make important and enduring contributions to social work social theory for social work is essential reading for social work students practitioners and professionals alike
