en gammel erfaren flyver gennemgår en flyvnings forskellige faser og fortæller om de problemer man møder undervejs og om hvordan man imødegår disse

travel writer robin liston and publisher and amateur pilot rory mcauliffe conceived the idea of visiting twenty six outback

places beginning with the letters a to z this book tells of their exciting journey

explains the basics of flying and answers questions such as why do airplanes stall and what is the rudder for

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

a cognitive and systematic approach to decision making and problem solving in flying making the correct decision under pressure is what distinguishes a good pilot from a mediocre one the man machine computer interface has become strongly dependent on human behavior the most important aspect is adaptation to new development the possibility of reaction to unforeseeable situations has increased so resilience to deal with such situations must be enhanced and developed the field of psychology offers useful tools assisting in safe and efficient conduct of the flight tools like betari s box for attitude and johari windows for communication as an airline crew our workplace is literally the whole world the majority of us work for large organizations that include many various geographic locations spanning the five continents and a variety of cultures the understanding of cultural diversity is the master key to effective cross cultural communication emotional intelligence is a cognitive emotional integration in flying the focus on technical and thinking abilities in problem solving skills alone is not enough to avert incidents and accidents from happening technical and emotional awareness are major factors in ensuring safety the importance of critical thinking and the application of the sumerians formula 5 w s 1 h in navigating through conditions and circumstances in order to evaluate and validate information the creative art of flying expands on the non technical skills explaining the practices and psychology behind them

excerpt from the new art of flying with numerous illustrations in the preparation of this volume the author has been ably assisted by several friends to whom he wishes to make due acknowledgment about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
