as the world is currently in the midst of financial and economic crises this collection of expert contributions focuses on strategy formation and implementation at various organizational levels to address the challenges ahead the latest economic turmoil and its ongoing impact on business performance are compelling top managers to develop effective business strategies and redefine the boundaries of their operational and strategic activities on one hand tremendous challenges in the competitive business environment have become a source of global threats for many small entrepreneurs on the other investors faced with today's volatile economic conditions demand more gains on their capital investments to counter balance the growing risk of global threats this book explores the question as to whether it is possible to efficiently and effectively address these threats and obstacles are managers capable of planning and implementing strategic actions what should the major managerial strategy be in order to overcome fluctuations in a market oriented society the strategies and practices recommended here are aimed to design continuous development competencies and contribute to the stability recovery and sustainability of global business operations under volatile economic conditions this refreshingly novel book seeks to establish managerial strategies and practices for effectively responding to challenges in the competitive business environment as global volatility and fluctuations continue to worsen

globalization no longer means simply finding low cost countries for sourcing but has involved to include the opportunity for growth in asia's emerging domestic markets specifically china this development results in extended truly global supply chains and thus places a higher pressure on working capital therefore several definitions of supply chain management already encompass financial aspects and demand a more integrated consideration of material information and financial flows within supply chains however more precise theory on supply chain financing is understudied and initial implementation of related solutions in industry has only gained momentum during and after the economic and financial crises of 2008 and 2009 in contrast to traditional financial instruments for supply chains for instance trade finance products which have been around for more than a century supply chain financing leverages larger and influential members of supply chains these firms might for instance provide easier and cheaper access to financing for smaller supply chain members supporting their profitability through renegotiated and reduced purchasing prices echoing recent research results on supply chain risk management other firms may prefer to take on a supply chain perspective and work on creating agile and resilient supply chains in this context supply chain financing can be employed to ensure liquidity for crucial upstream and downstream supply chain partners thereby allowing a firm to effectively control risk while making the most of remaining growth opportunities in emerging markets like china

this book includes papers presented at the 2nd economic forum german turkish perspectives on it and innovation management at the fom in munich organized by the fom university of applied sciences and atatürk university erzurum patron of the conference was prof dr johanna wanka federal minister for education and research to mark the german turkish year of science both countries picked out global and societal challenges as a central theme and explored solution strategies as well as their implementation in new technologies and innovations the papers discuss the effects of new technologies and innovations from different perspectives from it management banking and finance to the special challenges of smes
