this book addresses the up to date development and changing features of economic security it corroborates with the concepts policies and dynamics in the indo pacific region this book argues

that economic security is an important component of national security albeit it shall go beyond the narrowly defined national security which mainly focuses on military security and national defense the central argument of this book identifies at least two forms of transcendence of contemporary economic security the first transcendence is the transcendence beyond the narrow definitions and limited components while the second one prioritizes the transcendence beyond the level of analysis the domestic level in particular securing economic security is not only a concern of the government at the national level but also a major consideration for regional connectivity and its spill over impact at the international level as well as the maintenance of livelihoods of local society communities and people at the grassroot level this book demonstrates the joint efforts of transnational scholarship addressing the up to date development and dynamics of economic security in the indo pacific region through the lens of interdisciplinary perspectives the contributors of this book include scholars such as leading senior professors of international politics international political economy economics anthropology southeast asian studies research fellows and practitioners such as a lawyer and a ceo of a start up enterprise on green energy and carbon solution foreign policy think tankers technology think tankers cyber security expert and a diplomat former foreign policy officer from india the book contests against two myths the first is that economic security is exclusively state centric this book agrees that the security referent of economic security is mainly the state that is the government nevertheless this book argues that the referents should be more than the government by advocating that economic security is also tied up with the international community especially for the regional communities based on common strategic goals and shared interests besides additional referents to economic security should include private sector actors such as enterprises and companies and people sectors such as civil society local communities and people the second is to address the new dynamics of the economic security imposed by the strategic currents such as the us china trade war or russo ukraine war which triggered the international attention over economic security that is narrowly defined as the crisis for semiconductor chips supply chain resilience

this book explores interim and formative assessments focusing on what information teachers schools or states can collect to monitor student progress it examines assessing the effects of teaching and learning throughout the curriculum the book is based on a marces conference funded by the maryland state department of education

earth now is dominated by both biogeophysical and anthropogenic processes as represented in these two images from a simulation of aerosols dust red from the sahara sweeps west across the atlantic ocean sea salt blue rises into the atmosphere from winds over the north atlantic and from a

tropical cyclone in the indian ocean organic and black carbon green from biomass burning is notable over the amazon and southeast asia plumes of sulfate white from fossil fuel burning are particularly prominent over northeastern north america and east asia if present trends of dust emissions and fossil fuel burning continues in what we call the anthropocene epoch then we could experience high atmospheric co2 levels leading to unusual warming rarely experienced in earth s history this book focuses on human influences on land ocean and the atmosphere to determine if human activities are operating within or beyond the safe zones of our planet s biological chemical and physical systems volume highlights include assessment of civic understanding of earth and its future understanding the role of undergraduate geoscience research and community driven research on the anthropocene effective communication of science to a broader audience that would include the public the k 12 science community or populations underrepresented in the sciences public outreach on climate education geoscience alliance and scientific reasoning future earth is a valuable practical guide for scientists from all disciplines including geoscientists museum curators science educators and public policy makers

in this volume distinguished historians and political scientists examine the linguistic and conceptual dimension of the american founding they analyze political discourse during the short span of years from the revolution through ratification

the most comprehensive guide to transcultural nursing in global settings covering pain management mental health therapies child rearing practices certification and much more features comparisons of western and non western cultures and information on multiple cultures of urban usa

this book reports on research and practice on computational thinking and the effect it is having on education worldwide both inside and outside of formal schooling with coding becoming a required skill in an increasing number of national curricula e g the united kingdom israel estonia finland the ability to think computationally is quickly becoming a primary 21st century basic domain of knowledge the authors of this book investigate how this skill can be taught and its resultant effects on learning throughout a student s education from elementary school to adult learning

there is abundant evidence that most people often in spite of their conscious beliefs values and attitudes have implicit biases implicit bias is a term of art referring to evaluations of social groups that are largely outside conscious awareness or control these evaluations are typically thought to involve associations between social groups and concepts or roles like violent lazy nurturing assertive scientist and so on such associations result at least in part from common stereotypes found

in contemporary liberal societies about members of these groups implicit bias and philosophy brings the work of leading philosophers and psychologists together to explore core areas of psychological research on implicit or unconscious bias as well as the ramifications of implicit bias for core areas of philosophy volume 2 moral responsibility structural injustice and ethics is comprised of three sections moral responsibility for implicit bias contains chapters examining the relationship of implicit biases to concepts that are central to moral responsibility including control awareness reasons responsiveness and alienation the chapters in the second section structural injustice explore the connections between the implicit biases held by individuals and the structural injustices of the societies in which they are situated and finally the third section the ethics of implicit bias theory and practice contains chapters examining strategies for implicit attitude change the ramifications of research on implicit bias for philosophers working in ethics and suggestions for combatting implicit biases in the fields of philosophy and law this volume can be read independently of or in conjunction with volume i metaphysics and epistemology which addresses key metaphysical and epistemological questions on implicit bias including the effect of implicit bias on scientific research gender stereotypes in philosophy and the role of heuristics in biased reasoning

links management theory with practice and aims to take a real world approach to management each management function is covered in detail planning organizing influencing and controlling this edition emphasizes how management is practised and includes a new chapter on total quality management

most people have implicit biases they evaluate social groups in ways that they are unconscious of or cannot control and which may run counter to their conscious beliefs and values this volume explores the themes of moral responsibility in implicit bias structural injustice in society and strategies for implicit attitude change
