getting the best out of supervision in counselling psychotherapy does exactly what it says on the tin supervision is an essential part of counselling training and ensuring you know exactly how to get the very most out of supervision is important whatever their level of study exploring how to begin maintain and end a supervisory learning relationship in the context of existing theory and best practice guidelines the author will introduce your trainees to models and forms of supervision the skills informing good supervision what to expect from supervision key professional issues in supervision written in a lively and engaging style this book will enable both supervisors and supervisees to get the best they can from the supervisory experience

supervising the counsellor and psychotherapist considers how to meet the supervision needs of trainee and experienced counsellors psychotherapists and other helping professionals using an integrative approach that will appeal to practitioners from a broad range of backgrounds and theoretical persuasions the book charts the development of the supervisor as he or she moves through making the transition from therapist to supervising the work of others and includes consideration of the advanced competencies required to supervise experienced practitioners this third edition brings a number of contemporary perspectives to a well known and widely respected core text for the training and development of supervisors the cyclical model at the heart of the book has established its relevance in the uk as one of the best known frameworks for teaching and learning the steps and stages of supervision all chapters in this new edition have been extensively revised and updated and key elements include two brand new chapters on deepening supervision practice and moving beyond supervising counsellors and psychotherapists updates on recent developments in supervision including research outcomes the use of technology and supervising short term work creativity play and the use of metaphor and imagery in supervision developing the use of self through relational supervision supervising the counsellor and psychotherapist is a key text for trainee and experienced supervisors of counsellors and psychotherapists those who train supervisors and supervisees wishing to better understand the supervisory process

supervision is a prerequisite for all counsellors and for most psychotherapists yet until recently it has been assumed that any experienced counsellor or therapist could become a supervisor without any special expertise but the experience of those in supervision is sometimes of inadequate or even unhelpful work by their supervisors at the same time supervision is receiving considerable attention as a discipline in its own right with an expanding literature on the dynamics of the supervisory couple or the supervisory triad since the client is a central if absent presence more attention is also being paid to the technical skills required of the supervisor this book addresses those issues both from the perspective of the supervisee and the supervisor suggesting what supervisees might expect from good supervision as well as offering guidance to supervisors on how best to use to the full the opportunities offered by a therapeutic situation which has some similarities but also some radical differences from counselling and therapy itself

since the publication of the first edition of this book supervision has become of even greater significance in health education and social care settings with continuing pace in the trend towards mandatory registration managed care and clinical governance this fully updated and expanded edition includes new chapters on issues of diversity and the managerial role of the supervisor in context packed with practical examples in the key areas of personal and professional development joyce scaife and her contributors draw on three decades of clinical experience to explore frequently encountered dilemmas including how supervisors facilitate learning the ethical bases of supervision creating and maintaining a good working alliance how supervisors can balance management and supervision roles working equitably in an increasingly diverse and pluralistic world supervision in clinical practice offers a range of suggestions for providing supervision that are stimulating creative and fun using methods that ensure safe and open practice it is an indispensable text for supervisors and supervisees who practice clinically in a range of professions including applied psychology counselling psychotherapy psychiatry nursing and social work

clearly and sensitively this book explores the problem of sexual exploitation in counselling and therapy janice russell addresses the issues surrounding this emotive subject and offers models of practice designed to heighten awareness and contribute to the development of preventive strategies the first part of the book discusses the different dimensions of sexually exploitative practice overviewing contexts and concepts and examining the effects of sexual exploitation on clients the author focuses on practitioners in their particular settings looking at sexuality and power and how these are relevant within the therapeutic process russell draws on her own research with clients relating her
