this is the first systematic and extensive book on exotic options the book covers essentially all popular exotic options currently trading in the over the counter otc market from digitals quantos spread options lookback options asian options vanilla barrier options to various types of exotic barrier options and other options each type of exotic options is largely written in a separate chapter beginning with the basic concepts of the products and then moving on to how to price

them in closed form solutions many pricing formulae and analyses which have not previously appeared in the literature are included and illustrated with detailed examples it will be of great interest to traders marketers analysts risk managers professors graduate students and anyone who is interested in what is going on in the rapidly changing financial market

this book looks closely at the endings of narrative digital games examining their ways of concluding the processes of both storytelling and play in order to gain insight into what endings are and how we identify them in different media while narrative digital games share many representational strategies for signalling their upcoming end with more traditional narrative media such as novels or movies they also show many forms of endings that often radically differ from our conventional understanding of conclusion and closure from vast game worlds that remain open for play after a story's finale to multiple endings that are often hailed as a means for players to create their own stories to the potentially tragic endings of failure and game over digital games question the traditional singularity and finality of endings using a broad range of examples this book delves deeply into these and other forms and their functions both to reveal the closural specificities of the ludonarrative hybrid that digital games are as well as to find the core elements that characterise endings in any medium it examines how endings make themselves known to players and raises the question of how well established closural conventions blend with play and a player's effort to achieve a goal as an interdisciplinary study that draws on game studies as much as on transmedial narratology forms and functions of endings in narrative digital games is suited for scholars and students of digital games as well as for narratologists yet to become familiar with this medium

a reader's guide to the morphology and syntax of koine greek from the pen of a seasoned instructor of biblical greek this book functions as both an essential resource for second year students and an invaluable asset for all readers as they continue to hone and deepen their linguistic skills it begins with a basic overview of the language for new learners and for those looking for a brief refresher before moving into nuanced matters of morphology and syntax whitacre's aim is ultimately to help readers understand the subtleties of the language on the pages of the new testament thus he engages with the biblical text both grammatically and exegetically so that readers can experience its full power and beauty including numerous illustrative examples throughout and several useful appendices at the end a grammar of new testament greek is indispensable both as a textbook and as a reference for all readers of the greek new testament and other texts written in koine such as the septuagint and the apostolic fathers
