gloeckner incorporates the diary she kept as a teenager in this new illustrated novel her character minnie has been described as funny possessing an intellect at once worldly and incredibly naive full of sexual energy and emotionally immature the lively writing has been compared to that of a young william burroughs or perhaps bukowski trapped in a young girl s body many rich illustrations add a dizzying dimension to the tale

teen mothers describe their personal experiences choices and responsibilities

the past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of american law and the institutions of the liberal state in this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory the authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of american law should take writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory a third group of contributions questions the radicalness of these approaches in light of their failure to challenge

fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views the resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice a common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting radical critiques of the law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

perfect kind hilarious and persuasive lena dunham you need this book your mum needs this book your best friend needs this book everyone needs a dose of happy fat julie murphy

this book captures the emotional complexity and nuances of adolescence beautifully it highlights the blend of vulnerability and strength that comes with growing up feeling insecure yet determined to succeed finding joy in small moments and processing relationships in a way that is both humorous and introspective the diarist embodies the typical teenage experience balancing the intensity of school pressures with the equally intense emotional highs and lows of social dynamics their self awareness and curiosity stand out as they seek validation and understanding from teachers and peers while still finding joy in fleeting seemingly insignificant moments the way they reflect on relationships including the uncertainty about romantic interests and friendships demonstrates a deeper emotional intelligence even amidst the turbulence of youth the tone is lively and captures the immediacy of teenage life every glance every interaction feels important yet the diarist navigates it with a mix of humor and resilience showing an impressive ability to cope with challenges and celebrate small victories along the way
