let us nominate this the most important theoretical work on ethical or moral theory since
john rawls s theory of justice if you have philosophical inclinations and want a good workout
this conscientious scrutiny of moral assumptions and expressions will be most rewarding
donagan explores ways of acting in the hebrew christian context examines them in the light
of natural law and rational theories and proposes that formal patterns for conduct can
emerge all this is tightly reasoned the argument is packed but the language is clear christian
century the man value of this book seems to me to be that it shows the force of the hebrew
christian moral tradition in the hands of a creative philosopher throughout the book one
cannot but feel that a serious philosopher is trying to come to terms with his religious moral
background and to defend it against the prevailing secular utilitarian position which seems
to dominate academic philosophy bernard gert journal of medicine and philosophy

first published in 1994 routledge is an imprint of taylor francis an informa company

originally published in 1921 updated in 1932 and re issued in 1966 with an introduction by
stephan körner this book remains a classic introduction to the study of ethics it clearly

explains both the aristotelian and the kantian approach to ethical problems by combining the advantages of a historical and systematic introduction much of the book is devoted to aristotle and kant whose moral theories are important and who are influential forces in contemporary moral philosophy

this book provides a comprehensive systematic theory of moral responsibility the authors explore the conditions under which individuals are morally responsible for actions omissions consequences and emotions the leading idea in the book is that moral responsibility is based on guidance control this control has two components the mechanism that issues in the relevant behavior must be the agent s own mechanism and it must be appropriately responsive to reasons the book develops an account of both components the authors go on to offer a sustained defense of the thesis that moral responsibility is compatible with causal determinism

first published in 1926 this study addresses the theory of morality using four overarching approaches analytical psychological theoretical and finally philosophical within these methodologies chapters explore such areas as the character of moral enquiry the knowledge of good and evil freedom and self determination and moral philosophy this is an interesting reissue which will be of particular value to students researching the philosophy of ethics and morality

this ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related a reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic in social work as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need this ebook is a static version of an article from oxford bibliographies online social work a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of social work oxford bibliographies online covers most subject disciplines within the social science and humanities for more information visit aboutob.com

first published in 2000 routledge is an imprint of taylor francis an informa company

examines how practical reasoning can be put into the service of ethical and moral theory

overview what makes an action right or wrong why is something good or bad how does one make moral decision about what is right and good these are among the main questions in ethics that are the subject of moral theory this book explores some of the most historically important and currently debated moral theories about the nature of the right and good after introducing students in the first chapter to some of the main aims and methods of

evaluating a moral theory the remaining chapters in this book are devoted to an examination of various moral theories including the divine command theory moral relativism natural law theory kant s moral theory moral pluralism virtue ethics and moral particularism providing an introduction to moral theory that explains and critically examines the theories of such classical moral philosophers as aristotle aquinas kant bentham mill and ross this book acquaints students with the work of contemporary moral philosophers
