written by a contemporary master of traditional practice this text elucidates both technical matters and significant points of the philosophy that form the basis of the practical craft of astrology

the author gives a full history of the origins of temperament in astrology then shows clearly and succinctly how readers can work to assess temperaments themselves copious case histories support her technique

magickal workings and everyday life itself are significantly enhanced by astrological knowledge in astrological magick estelle daniels explains the language symbolism and techniques to the student of magick ranging from the simple to the complex the techniques presented do not require extensive math or natal charts just an astrological almanac making this book an easily accessible and useful tool when choosing opportune times for magickal events or seeking to understand the magickal nature of your personal astrology this is the first book to explain how people interested in the pagan way in wicca and in magickal practices can apply astrological indicators and energies to important timings and rituals

synastry puts relationships under the cosmic microscope of astrology offering an insightful perspective on the dynamics that drive all personal interactions. Rod Suskin, the author of *Cycles of Life*, blends traditional methods with modern techniques in this introduction to synastry. His step by step approach begins with interpreting an individual's birth chart to pinpoint relationship needs and behaviors. Next, you'll learn chart comparison techniques involving the elements, inter-chart aspects, planets in aspect, the fifth house dignities, and other astrological factors to determine the compatibility and longevity of a relationship. Synastry will help you explore many critical issues that affect relationships: communication habits, values, feelings of self-worth, sex drive, life goals, attitudes toward money and children, karma, and more. For the professional astrologer, there is also advice for conducting client consultations with sensitivity and objectivity.

Everything changes, nothing remains the same. We live in an ever-evolving universe. If we apply this reality to tropical zodiac, the popular system of astrology, it is impossible that Aries aligns to the first day of spring every year. It is merely a poetic adjustment. Sidereal time zodiac is the astrology that moves with the skies and uses accurate astrological data. Astrologer Trudy Pellegrino explores both systems so you can find out the truth about astrology and your real sign.

This book is an English translation of Book XVIII of the *Astrologia Gallica* in which Morin explains in detail his theory of how to determine the strengths and weaknesses of the planets in a horoscope, a topic of great relevance and consequence to astrology. The present volume includes several horoscopes of notable persons that are used as examples of the rules Morin was a well-known physician who became the most renowned of the French astrologers. He was appointed royal mathematician to King Louis XIII and was present at the birth of the future King Louis XIV. His massive *Astrologia Gallica*, written in the scholarly Latin of the 17th century, is now becoming available to English-speaking readers in a series of translations.

The majority of horoscopes in current use are terribly wrong. Why? Because spiritual birth times, which are essential to producing an accurate horoscope according to Edgar Cayce, occur up to four and a half hours before physical birth. That difference leaves aspects between planets about the same but shifts all house cusps backward by up to one or two signs compared with most of today's faulty horoscopes. These perfect horoscopes match personas with awesome precision and provide greatly enhanced forecasting capabilities. This revolutionary book on astrology shows you how to: 1. arrive at spiritual birth times; 2. apply two other fundamentals of astrology currently omitted from most horoscopes; and 3. verify your now totally functional horoscope. Topics covered in this book include: who in recorded history may have been responsible for the mistakes of astrology and its subsequent fall from grace; how to calculate accurate soul-chosen horoscopes; what steps can be taken to verify a soul-chosen horoscope; why progressions, not transits, mark the stepping stones of life; when horoscopes can be used to confirm fundamentals and reject damaging false ideas such as the first breath theory; which concepts will change as we move from the Piscean age of tolerant opinions to the Aquarian age of benevolent intelligence.
