the shining ones were members of an advanced culture that was almost lost but their wisdom and their power survived they preserved the secrets of their advanced knowledge in mythology and legend they embedded their secret codes in symbolism in art architecture the mystery traditions and literary works including the bible the authors have found traces of the influence of the shining ones in all the major religions with roots in the ancient world gardiner and osborn have discovered that their secrets and rituals have been hidden and preserved through the centuries by the knights templar the rosicrucians and the freemasons to the present day furthermore they believe that the evolution of civilization has been manipulated by a secret and powerful group of initiates descended from the shining ones they can identify their influence behind science religion mysticism and philosophy and of course in the arena of powerful politics this is an extraordinary story of intrigue and power play at a very human and political level but it is also the revelation that the shining ones had knowledge of the deep spiritual truth that lies at the heart of mankind s yearning for an understanding of the meaning of life and to achieve salvation

for many years now there has been an upsurge in revelation stories and alternative viewpoints on man s history people such as graham hancock and lawrence gardner have brought to light many new ideas and many new problems now there is a new theory which is all encompassing and clearly brings into focus a more sinister reason behind the emergence of civilisation in his theory on atlantis graham hancock is receiving much admiration and academic acclaim standard academic thought is more towards the spontaneous eruption of civilisation across the globe with little or no explanation of why there are so many similarities between the cultures now philip gardiner in his new book the shining ones is set to turn even this upon its head the theory is so simple that it begs the question why has it not been thought of before the reason for universal similarity of architecture language art travel and religious belief is quite simply an ancient and secret religious brotherhood who have hidden themselves deep within the symbols ciphers and codes of our ancient texts for hundreds of years they held a secret knowledge and power base which spread with them across the globe the very title that they have given themselves is hidden within the standard text and religious books we use every day the shining ones put like this the whole thing can sound like an x files conspiracy theory however the author has invested huge amounts of time and energy checking researching and seeking the advice of academics now the theory is attracting the attention of historians who can see that the patterns are as subtle as this author proposes the fact is this theory does explain away all the problems with dating and variations that people such as hancock have come up against many academics and especially egyptologists are now turning to this way of thinking and with gardiners spirit and broad knowledge in history and language the history of the ancients and the secrets that they hold are becoming more clear there are of course

dissenters the author has been accosted for his standpoint and there are still those hardened academics and even non academics who refuse to even listen however there is a major tv documentary in pre production stages and with interviews planned across the nation on radio and tv the message may soon be accepted as a credible theory

yet again gardiner finds himself on a journey across the world to uncover the ancient secrets of the worlds most powerful men

friendship with the judge came at a pivotal time in doc s life he quickly became the closest truest most generous brother doc ever knew they were a chemical reaction when they came together with a thought an idea or a plan to pull off another coup as the saying goes there s synergy creating energy that s stronger than the sum of its parts that was doc and the judge the judge was fire doc was water the judge was all reaction and doc was all control doc and the judge redefined business as usual they didn t just break on through to the other side as jim morrison urged in his hypnotic sixties reverie they crashed and crashed on through they made tons of money for the grey suits that supported and funded them and a tidy pile of cash for themselves along the way though it was truly not about the money for them it was about being dudes they defined themselves daring the world to defy their ability to turn cultural trends into big money returns for the true believers who backed them they never compromised never shrank from a battle and never feared losing it all their business acumen and inherent credibility was inextricably linked to their integrity and musical and business authenticity doc watched over the judge for his own good and the judge knew and respected his faith the judge was a searing shooting star flashing blindingly across the night sky and defiantly demanding acceptance on his own terms the doc executed the business and kept it real they took on the world bought and sold it many times over laughing all the way to the bank they were inseparable during the decade of the 70 s butch and the kid many called them the judge always swore he ruled his court doc smiles at these memories suspecting that even now he s hanging out with god and is slipping a wickedly powerful toke or perhaps a st pauli s girl to the apostles when the big g isn t looking
