a book that lists french language words and gives their equivalent in english and english language words with their equivalent in french

countess josephine brunsvik deym stackelberg was the woman beethoven loved his only beloved his everything and the angel of my heart nowhere does she come more vividly to life than in the 107 surviving letters that josephine and her first husband count joseph deym exchanged between 1800 and 1803 they reveal the day to day concerns and social circumstances of a young wife and mother of noble birth highly intelligent and musical in the early nineteenth century joseph was a famous entrepreneur and wax figure artist and the deym house on rotenturmtor was vienna s largest tourist attraction the richly annotated first edition of the marriage letters is rounded off by official documents and letters concerning the deym s wedding and joseph s death beethoven who was josephine s piano teacher for several years and often performed in er viennese home is mentioned repeatedly in other brunsvik family letters of these years here edited in english translation together with the memoirs of josephine s elder sister therese two final chapters provide detailed biographical material on joseph deym and his wax museum and on the brunsvik family

in the burial vault of the guelfs at hanover stands a coffin enclosing the remains of the electress sophia and bearing the inscription magnæ britanniae hæres these words sum up her story as that of a great hope long cherished but never fulfilled yet a biography of this princess who died though herself uncrowned the mother of our kings to be will if truthful be found to treat a nobler theme than a personal ambition born of chance upon chance vexed by prolonged delays and doomed to final disappointment the electress sophia was in herself worthy to be the source of a dynasty whose last and most august member left to her successor a throne far securer than that which was mounted by sophia s eldest son but the nation of whose institutions a limited monarchy has long formed an integral part also owes a debt to the very fact of the accession of the house of hanover and therefore to the insight and self control exhibited by that house and conspicuously by the electress sophia during the entire preceding period of uncertainty at a highly critical date in the course of those years when the electress and her family were most anxious to avoid any rash or false step on their own part she told a correspondent that at the english court it was held indispensable to pretend to wish for the succession of the electoral line because of the people although there were in those days jacobites enough and to spare in london and other parts of the kingdom and although the stolidity of our first hanoverian king and the self conceit of his successor retarded the growth of personal sympathy between monarch and subjects yet the perception in both dynasty and nation of a definite community of interests formed a sufficient beginning for the growth of a close mutual attachment to this the electress sophia contributed it is not too much to say both by the circumstances of her birth and by the conduct of her life she was the daughter of a stewart princess on whose protestant marriage the nation had set its hopes and whom it had seen condemned because of her husband s youthful venture in the cause of militant protestantism to long years of exile and privation in her own conduct sophia displayed a prudence a dignity and a sincerity which have rarely under conditions so trying been so consistently combined the legend indeed of her having often declared that she would die content if those other words sophia queen of great britain could be inscribed on her tomb is irreconcilable with the whole tenor of her known private thoughts as well as of her public acts she was far from indifferent to the greatness that might be in store for her or to the necessity in the interests of her house of constant vigilance promptitude and tact but she deemed it enough to be found at no stage of her career either unequal to her present fortunes or unready for those responsibilities of a greater future which cast their shadow before them thus it is largely due to her and as it is but just to acknowledge with her and after her to the next heir to her expectations that so far as the house of hanover is concerned the history of its succession to the british throne may be reviewed without the feelings of humiliation too often aroused by narratives of disputed inheritances at the same time the essential significance of that history would in any case have to be sought deeper than in the vicissitudes of personal ambitions or the machinations of families or factions the hanoverian succession was in fact only another name for the protestant succession in flesh and blood and as such represented the principal gain which most englishmen and scotchmen were intent upon bringing home out of the long struggle against the stewart monarchy not that the disputes and efforts connected with the hanoverian succession throughout or at times mainly addressed themselves to the religious issue but it would be futile to ignore or to seek to obscure the origin and basis of the great political transaction in which the electress sophia was called upon to play so prominent a part she was fitted to play it alike by the circumstances of her descent and marriage and by the qualities of her character and intellect and above all by a perfect self control joined to a freedom of spirit in which during the efforts and trials of her life she found encouragement and consolation from the relation in which the electress sophia stood to the question of the british succession that loomed so large on the political horizon during her later years the story of her life derives its paramount interest even on the experiences of her earlier years whose memories carry us back to the time of the thirty years war and of the great civil conflict in this island it is impossible to dwell without thinking of

the great destiny reserved for her line and of the many helps and hindrances which were to facilitate or to impede its accomplishment but in the semi obscurity of her youth as under the gaze of inquisitive eyes to which her maturity was exposed she remains true to herself and few biographical records could prove more fascinating than one covering her fourscore years were it but possible to depict her from first to last in the same life like colours in which she has portrayed herself in her memoirs and in which she reappears on almost every page of her correspondence unfortunately it is difficult to convey by extracts and impossible to preserve in translation the constant alertness of thought and refreshing vivacity of expression frequently touched by real humour and at all times free from any tinge of affectation which are not less characteristic of her letters than they must have been of her conversation as for her autobiography it breaks off as early as 1681 and thus fails to cover that longer half of her life in which she was to become a figure of importance in european affairs for it was the abdication by flight of king james ii and the subsequent passing of the bill of rights which brought about and established the restriction of the english succession to protestants and which first placed sophia and her line though not as yet by name in direct relation to that succession as a question of practical politics
