unraveling the origins controversy answers many of the most challenging questions in the origins debate dr david a dewitt clears up the confusion about creation and evolution by distinguishing fact from interpretation he exposes underlying assumptions and evidence on both sides of this contentious debate from a consistent biblical worldview using scientific evidence and scripture he presents a positive compelling case for a creation perspective

almost eighty years after the scopes trial the debate over the teaching of evolution continues to rage there is no easy resolution it is a complex topic with profound scientific religious educational and legal implications how can a student or parent understand this issue which is such a vital part of education evolution vs creationism provides a badly needed comprehensive and balanced survey written by one of the leading advocates for the teaching of evolution in the united states this accessible resource provides an introduction to the many facets of the current debate the scientific evidence for evolution the legal and educational basis for its teaching and the various religious points of view as well as a concise history of the evolution creationism controversy each of the four sections of evolution vs creationism provides a resource that will assist the reader in better understanding these issues the first section addresses the nature of how evolution works as part of the scientific enterprise as well as a summary of the relationship between religious beliefs and science a section on the history of the controversy provides a handy synopsis of the lengthy struggles from before darwin to the present day between advocates of creationism and the proponents of evolution a collection of primary source documents addressing cosmology law education and religious issues from all sides of the debate constitute the third section the book concludes with a selection of resources for further information for those who wish to study the topic in more depth

unraveling the origins controversy science the bible confirm creation answers many of the most challenging questions in the origins debate dr david a dewitt clears up the confusion about creation and evolution by distinguishing fact from interpretation he exposes underlying assumptions and evidence on both sides of this contentious debate from a consistent biblical worldview using scientific evidence and scripture he presents a positive compelling case for a creation perspective this second edition is revised and expanded covering a broad range of subjects from the big bang theory to the origin of life to the alleged 98 dna similarity between humans and chimpanzees while understandable to the non scientist the book is well documented for those who desire more details

organized into three practical parts the creation controversy arms you with insights into modern science and the book of genesis effective strategies for teaching evolution and other controversial topics and the nsta position statement on evolution

in 1859 an amateur british naturalist published a book of findings that shook the scientific community to its core and changed the structure of religion and science as we know them the product of over 20 years of research the origin of species challenged the popular belief that species could not evolve and argued that species can adapt to their environment and develop accordingly although other scientists had observed some of the phenomena that charles darwin addressed he was the first to theorize that natural selection and later evolution were viable explanations for the origins of life the implications of darwin s findings still reverberate today in the classroom in the courtroom and at the highest legislative levels lively thematic chapters explore how darwin came to the conclusions published in the origin of species and in later works such as the descent of man from his early years at cambridge to his observations of species on the hms beagle voyages through the 20 years of research that culminated in origin also included is an insightful discussion of darwin s impact as it is felt today from movies and popular culture to the current intelligent design controversy biographies of influential figures primary source letters and selections from origin a glossary of terms and an extensive annotated bibliography round out this accessible work

a fascinating contribution to marxist historiography and to the history of marxist historiography dirlik s story of the reemergence of the modes of production debate in the early years of the chinese revolution has much to tell us about that debate itself and not least about its intimate relationship to political practice and revolutionary strategy fredric jameson duke university

presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy

persistent resistance to the teaching of evolution has so drastically impacted science curricula that many students finish school without a basic understanding of a theory that is a fundamental component of scientific literacy this evolution creationism controversy has crippled biological education in the united states and has begun to spread to other parts of the world this book takes an educational point of view that respects both the teaching of evolution and religious beliefs authors from different academic traditions contribute to a collection of perspectives that begin to dismantle the notion that religion and science are necessarily incompatible

in contrast to the gradual formation of the high cultures of most of the world the process by which islamic civilisation emerged and took on its classical form between the 7th and 9th centuries was unusually sudden the studies collected here are concerned with aspects of this remarkable development their topics are varied

including the emergence of dialectical theology the origins of accounts of pharaonic history current in medieval egypt the sources of muslim dietary law the islamic background of karaism and max weber s views on islamic sects other articles look at early syrian eschatology and its connections with late antiquity and byzantium at the relevance of eschatology to debates about the dating of traditions and at the attitudes of the early traditionists to the writing down of tradition the final items examine reports about the textual affiliations of a long lost koranic codex and discussions of adultery among the baboons of yemen a recurring theme is the relationship between early muslim ideas and those of non muslim cultures sometimes very ancient ones
