ensnared by politics and law at the highest levels of government including president thomas jefferson one of burr s bitterest enemies and chief justice john marshall no fan of either burr or jefferson hoffer recounts how jefferson s prosecutors argued that the mere act of discussing an overt act of war the constitution s definition of treason was tantamount to committing the act marshall however ruled that without the overt act no treasonable action had occurred and neither discussion nor conspiracy could be prosecuted subsequent attempts to convict burr on violations of the neutrality act failed as well book jacket

what makes the trial so appealing as dramatic form why do we watch is it simply the quest for truth and justice or is it much more than that from the time of sophocles the court has fascinated audiences and dramatists alike kleist is no exception as each of his dramas and many of his stories and anecdotes contain a trial of some sort from its most primitive form of hand to hand combat in the duel to more conventional legal proceedings in secular military and ecclesiastical courts at trial we desire whether consciously or unconsciously to have our own system of beliefs and behaviours affirmed rather than to attempt to achieve justice self interest prevails at the expense of truth and equity the focus of this book is the tension between the restoration of dike the balance of natural order and the pursuit of truth and justice as impetus behind the trial with recourse to the concept of legal instrumentalism which underscores this preference for order over justice in both the law and literature the author examines kleist s dramas to determine the extent to which those individuals in positions of power are able to manipulate the proceedings seeking not justice and truth but rather the validation of their own particular version of order the trial a tool generally thought to be designed to discover truth and to mete out justice is used instead in the hands of the powerful as an instrument of control and degradation
